Open Letter of Recommendation

To Whom It May Concern:

I was pleased and honored when Faisal Alyahya asked me to provide a letter of recommendation for him. I have known Mr. Alyahya for the past two years, as he is one of my students at Wentworth Institute of Technology.

I would personally like to recommend Mr. Alyahya for admission to your university. I taught Mr. Alyahya during the 2008-2010 school years. The courses included: Computers and Business Applications, Management, Technology Acquisition and Technology Transfer just to name a few. In my courses, he maintained a very high average, maintained a professional attitude throughout the semesters, and worked very hard within dynamic group environments. In one class Mr. Alyahya had to work with a moderately diagnosed disabled student and with another student who just could not get himself organized. The projects were extremely challenging for Mr. Alyahya and his excellent group leadership skills are the only reason the two other students were able to pass the course.

On a personal level, Faisal has an endless amount of energy, a positive and forthcoming spirit, and a kind heart towards everyone. He makes time to listen, to guide from his own experiences, and to help his fellow classmates as needed. These qualities are perfect for admission to your graduate program.

Again, I wish to reiterate my recommendation that Mr. Faisal Alyahya is selected for admission to your university. If you need additional information please contact me at 617-989-4388 or email at stevensc@wit.edu.

Respectfully submitted,

Cindy P. Stevens
Associate Professor
Wentworth Institute of Technology
Management Department (BSM)
